

Please complete this worksheet before the webinar. Simply fill in your sales, profits, clients and subscribers for the past 12 months. Then (the fun part) document your 90-day and one year goals for each of these. Don't be shy, where do you really want to see your business 90 days and one year from now? Lastly, list the obstacles you feel are blocking you from meeting your goals right now and the methods you will use to reach your goals.
